Product Change Notification

Change Notification #: 108257 - 02
Change Title: Intel(R) IP Network Server NSC2U, PCN 108257-02, Product Design, Updated System Firmware with Support for Intel(R) Xeon(R) Processor 5400 series, Reason for Revision: Canceling this change
Date of Publication: January 13, 2009

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Sep 28, 2008
---	--------------

Description of Change to the Customer:

Reason for Revision: Canceling this change

This change is canceled because there is no technical requirement to update the system firmware at the Intel factory. Customers should continue to load their chosen firmware revision during their system integration process.

Original PCN message follows:

The system firmware for the Intel® IP Network Server NSC2U has been changed from (BIOS 0079, BMC 59, and FRU/SDR 08) to (BIOS 0085, BMC 62, and FRU/SDR 11) or later revision. The updated firmware packages include support for the Intel® Xeon® Processor 5400 series and fixes. A list of the added features and fixes is documented in the release notes file included with each firmware package.

This notification will be republished when firmware revisions are finalized.

Customer Impact of Change and Recommended Action:

These firmware packages have passed a validation cycle on the Intel® IP Network Server NSC2U. Customers may choose to perform re-qualification, re-test, re-certification or standard validation testing for this change.
