Product Change Notification

Change Notification #: 110692 - 00
Change Title: Intel(R) Workstation Board WX58BP, PCN 110692-00, Product Material, BIOS Flash Chip Change, BIOS Update To R0042
Date of Publication: June 14, 2011

Key Characteristics of the Change:

Product Material

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Jun 30, 2011
---	--------------

Description of Change to the Customer:

Intel will implement the following changes on Intel® Workstation Board WX58BP:

The source part for the BIOS flash chip is changing to Winbond* W25Q16BVSSIG because the original source Winbond* W25X16AVSSIG has been discontinued.

The system BIOS programmed at the factory on the Intel® Workstation Board WX58BP is being updated to support the new source flash chip: BIOS - update from R0034 to R0042

BIOS revisions prior to R0042 are not supported on the boards with the new flash part (PBA # E64644-203 and later). Attempting to downgrade the BIOS to any previous revision will render the board inoperable. For more details, please refer to Advisory Note (TA_981_1.pdf) - Intel® Workstation Board WX58BP, with board PBA# D64644-203 or later, does not support BIOS revisions prior to R0042.

Please see the release notes for a list of changes made to the new BIOS revision. The new BIOS revision, including release notes, is available for download from Intel's support web site:

http://www.intel.com/p/en_US/support/highlights/server/wx58bp

Customer Impact of Change and Recommended Action:

Intel recommends customers to evaluate these changes and determine impacts to their specific applications when the updated products become available.
