

# Product Change Notification

**Change Notification #:** 117742 - 00  
**Change Title:** Select Intel® SSD 660p Series,  
 PCN 117742-00, Product Design,  
 Firmware, Order Code, and Label Update  
**Date of Publication:** August 24, 2020

## Key Characteristics of the Change:

Product Design

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:**</b>	September 8, 2020
---	-------------------

\*\*The date of "Customer Must be Ready to Receive Post-Conversion Material" is the projected date customers must be prepared to start receiving the Post-Converted Material. After this date, the Pre-Conversion SKUs will be discontinued and no longer guaranteed. They may be available only on a first come first serve basis, while supply lasts.

## Description of Change to the Customer:

The Intel® SSD 660p Series SKUs listed in the Products Affected table below will have the following updates:

1. The firmware version updated from 002C to 004C. The changes in the new firmware version are incremental improvements from previous version. Inventory has transitioned in the Intel factory on or beyond the above date to replace older firmware version with the latest version.
2. Updated Labels to reflect new Firmware Versions 004C.

### New 512GB Label

### New 1TB Label

## Customer Impact of Change and Recommended Action:

Since the firmware update has incremental improvement over the previous version, Intel anticipates no product impact with this firmware, and re-qualification is not recommended.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Intel Field Sales Rep if you have any further questions about these changes.
