## Description of Change to the Customer:

The Intel® Wireless-9560 1216 SKUs listed in the products affected table below will undergo the following changes.

1. While updating the HW configuration bitmap in the new OTP, an additional bit was mistakenly configured which impacts the Wi-Fi boot sequence for the Intel® Wireless-9560 on Quasar-based platforms only. Update OTP back to previous version.
2. The Intel Tracking revision will be changed on the following products

SKU	Before	After
9560.D2WG	0G	0H
9560.D2WG.NV	0G	0H

## Customer Impact of Change and Recommended Action:

The label and the hardware configuration bitmap change to the products do not affect functionality. Intel anticipates no impact to customers.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Intel Field Sales Rep if you have any further questions about these changes
