

# Product Change Notification

## 108146 - 00

Information in this document is provided in connection with Intel products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

PCN 108146-00, Label, Product Label Change:  
Update to Intel CT tracking code**

**Date of Publication: December 07, 2007**

## Key Characteristics of the Change:

Label

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	Jan 04, 2008
<b>Date of First Availability of Post-Conversion Material:</b>	Jan 04, 2008

*The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.*

## Description of Change to the Customer:

This ECO will incorporate the following changes:

1. Update to Intel CT tracking code across all 4965AG\_ and 4965AGN Generic SKUs.

## Customer Impact of Change and Recommended Action:

Customer will receive product with the following changes:

1. Incorporating the 2008 & 2009 manufacturing week code into the CT code data content. Note this is for Intel tracking purpose only. No change to product form, fit, or function.
2. Dash up to the TA #

No change to form fit or function. No change to Intel Ordering codes.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

## Products Affected / Intel Ordering Codes:
