Product Change Notification

Change Notification #: 106808 - 02
Change Title: Intel NetStructure® ZT4921AW and ZT4921BW, PCN 106808-02, Product Design, 1. Change PLD blank part due to vendor is discontinuing leaded device and moving to unleaded device. 2. Change flash blank part due to vendor is consolidating product line and 90nsec part will no longer be available. 3. Change SODIMM due to dice changed, Reason for Revision: Change SODIMM due to dice changed
Date of Publication: February 06, 2007

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Feb 01, 2007
---	--------------

Description of Change to the Customer:

Reason for Revision: Change SODIMM due to dice changed

Three component changes are being made:

- 1) Change CPLD device from a leaded device to an unleaded device. Component vendor is discontinuing the leaded device and switching over to a unleaded device and so leaded device will no longer be available.
- 2) Replace 90nsec FLASH device with a 70nsec device. Component vendor is consolidating their product line and so the 90nsec FLASH device will no longer be available.
- 3) Change SODIMM due to dice changed. Replacing the Elpida DRAM part which is no longer supported with a supported Infineon DRAM part.

Customer Impact of Change and Recommended Action:

Intel has evaluated these changes to ensure that they do not have any negative functional implications to our customers. Customers may want to perform re-qualification, re-test, re-certification or standard validation testing for this change.
