# Product Change Notification

**Change Notification #:** 112896 - 00  
**Change Title:** Intel® Server System P4304BTLSHCNR  
PCN 112896-00, Label  
Update Package Regulatory Label  
**Date of Publication:** February 25, 2014

## Key Characteristics of the Change:

Label

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material *:</b>	Effective Immediately
---	-----------------------

*\* Intel appreciates the customer's desire to receive the latest revision of products. However, Intel manages inventory on a first in first out (FIFO) basis at the MM# level. Subsequently, customer requests for a specific revision of material (below the MM#) will not be supported by Intel.*

## Description of Change to the Customer:

Intel has implemented the following Package Regulatory Label updates on the Intel® Server System P4304BTLSHCNR:

1. Replaced the Intertek Electrical Testing Laboratories (ETL) and Germany Safety (GS) marks with the Nemko Communication Certification Laboratory (CCL) and GS marks.
2. Added a Ukraine TECT mark.
3. Removed the Korea Certification (KC) mark.
4. As part of Intel's efforts in environmental responsibility to eliminate excess materials for disposal, Intel will no longer be including the piece of paper with the California PERCHLORATE notification and a separate label with this information. Instead Intel will be including the California PERCHLORATE notification on an existing safety label.
5. The part number of the package regulatory label has changed from G21162-001 to G21162-003.

Post-Change

**Customer Impact of Change and Recommended Action:**

This change was effective in July, 2013 and based on inventory levels customers will start seeing this change now.

Intel encourages customers to understand the changes and determine impact to their applications.

**Products Affected / Intel Ordering Codes:**

Product Code	MM#	Pre Change TA	Post Change TA
P4304BTLSHCNR	920615	G63611-002	G63611-003
