## Description of Change to the Customer:

The Intel Gigabit CT2 Desktop Adapter, E1G31CTG1P20 MM#908804 (Shelter Island II HF OEM generic) will undergo the following changes:

Intel Corporation will transfer the manufacture of this adapter into the Intel qualified facility located in Thailand. The facility was qualified in 2008 to manufacture adapter products, and it currently manufactures adapters with equivalent product technology.

There will be no change to the product except the location it is manufactured, and the identification that the product is now "Made in Thailand" vs. the older "Made in Malaysia". See pictures below showing new Disti label with new Made in Country of Origin (COO) = Thailand and new KC label Made in COO.

### Customer Impact of Change and Recommended Action:

There will be no change to Form, Fit or Function, except reference to the manufacturing location change as mentioned above.

Customers should expect to receive mixed inventory from both Malaysia and Thailand, until current inventory levels are depleted.

Please contact your local Intel Field Sales Representative if you have any further questions about this change.
