Product Change Notification

Change Notification #: 106420 - 01
Change Title: Line Item Consolidation for Intel® Advanced and Advanced+ Boot Block Memory, TSOP B3 & C3, PCN 106420-01, Order Code, Reason for Revision: Incorrect Product Table
Date of Publication: August 01, 2006

Key Characteristics of the Change:

Order Code

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Sep 14, 2006
---	--------------

Description of Change to the Customer:

Reason for Revision: Incorrect Product Table

Intel is consolidating line items to a single order code for the Intel® Advanced and Advanced+ Boot Block Memory, TSOP B3 & C3. The 90ns line items are being replaced by the 70ns line items.

There are no functional changes associated with this line item consolidation. The 90ns and the 70ns line items are functionally equivalent, both are tested to the 70ns parameters.

As a result of this consolidation, the top side mark & packing label on Intel® Advanced and Advanced+ Boot Block Memory TSOP B3 & C3 family will reflect the consolidation from 90ns to 70ns. The 70ns is reflected in the last two digits on the top line of the mark.

Part numbers and Material Master numbers (MM#) for existing 90ns products will change as per the table listed in this PCN below.

Customer Impact of Change and Recommended Action:

This line item consolidation will not affect the performance, quality, reliability, interchangeability, functionality, or customer handling and manufacturability.

If customers need samples to qualify their applications, please order from the 70ns line items listed below.

Customers must begin ordering from the 70ns line items no later than the Customer Ready to Receive milestone listed above.

Products Affected / Intel Ordering Codes:

Component Product Table

Products Affected / Intel Ordering Codes:
