

Product Change Notification

108218 - 00

Information in this document is provided in connection with Intel products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

Product Change Notification

Change Notification #: 108218 - 00
Change Title: Intel® TXN136037E00DS3 and
TXN136077300TS5, PCN 108218-00,
Manufacturing Site and Mark Change
Date of Publication: January 18, 2008

Key Characteristics of the Change:

Manufacturing Site
Product Marking

Forecasted Key Milestones:

Date of Samples Availability:	Apr 08, 2008
Date of Qualification Data Availability:	Apr 18, 2008
Date Customer Must be Ready to Receive Post-Conversion Material:	Apr 18, 2008
Date of First Availability of Post-Conversion Material:	Apr 18, 2008

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

The Intel® TXN136037E00DS3 and TXN136077300TS5 300-pin optical transceiver product family will be manufactured at a new location in Thailand, beginning 1st January 2008. Assembly and test processes in the Thailand factory are equivalent to current location.

Customer Impact of Change and Recommended Action:

Customers can distinguish the units manufactured at the new location by referring to the country of origin markings. Product assembled at the new location will have country of origin showing "Made in Thailand". There is no change in the Product Code or MM#.

Intel will be providing a delta-qualification report for product built at the new location. This testing is in addition to the 5000hr reliability testing Intel has previously done for these products.

Please contact your local field representative for these reports. Units will be made available if required for customer qualification testing; however customers are encouraged to consider this as a "paper qualification" as there is no material or process change associated with this site change.

Products Affected / Intel Ordering Codes:

Affected Product Code	Affected MM#
TXN1360773AATS3	884135
TXN136077300TS5	884136
