Description of Change to the Customer:

The Intel PRO/1000 MT Dual Port Server Adapter, PWLA8492MTG2P20 MM#853671 (Double Barrow OEM generic), and Intel PRO/1000 GT Dual Port Server Adapters, PWLA8492GTG2L20 MM#885972, PWLA8492GTG2P20 MM#885846 (Double Barrow II LF OEM generic) will undergo the following changes:

To comply with new regulations from Korea, Intel will be adding the new KC logo to the Printed Board (PB) as a label. The label will be added to either the front or the back of the PB depending on space constraints. The new KC logo will also be added to all box labels (product box label and over-pak box label). **(see pictures 1, 3 & 4)**

The old silk screened KCC logo will remain on the PB (either front or back). We cannot cover this logo up with the new KC label, as it would interfere with other markings. **(see picture #2)**

As a result of these changes, the TA (top assembly) number and PBA (printed board assembly number) will roll as noted in the affected products table within this PCN notice. If TA/PBA numbers are printed on any product or box labels, those will show the dash roll as well.

CPU label will be showing on the PWLA8492MTG2P20, MM#853671 product.

Customer Impact of Change and Recommended Action:

Please contact your local Intel Field Sales Representative if you have any further questions about these changes.

Customers can expect to receive mixed inventory, until current inventory levels are depleted.

The addition of the new KC logo to the PB and box labels will not affect the Form, Fit or Function of the affected product(s).

Please Note: *Due to the complexity of these changes to all of our shipping Networking Adapter products and current inventory levels, customers might expect to see a shortened time period between date of PCN publication and Customer Ready to Receive Date.*
