Date Customer Must be Ready to Receive Post-Conversion Material:	Nov. 10, 2006	Nov. 20, 2006	Dec. 4, 2007	Jan. 9, 2007	Jan. 15, 2007	Jan. 22, 2007

Description of Change to the Customer:

In line with the recent sale of the optical-networking component product lines to Cortina-Systems, Inc., Intel Corporation will be moving the production test site from the current Penang, Malaysia site to an equivalent test site also located in Penang, Malaysia. Intel Corporation will also be moving the production test site from Folsom, California to Fremont, California. These moves will consist of moving the probers, testers, test programs, test processes, and all associated hardware to the equivalent test site to ensure copy exact for sort and test is followed.

The "Date Customer Must be Ready to Receive Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel Corporation will continue to ship and customers may continue to receive the pre-converted materials until the current inventory has been depleted.

As each product transitions to the new test site, the responsibility for supply chain also transfers from Intel Corporation to Cortina-Systems, Inc.

Customer Impact of Change and Recommended Action:

This change has no impact on form, fit, functionality, customer handling, manufacturability, or product quality. Intel Corporation does not anticipate impact to any customer applications. Additionally, there will be no change to Product Code and/or MM#.
