## Description of Change to the Customer:

Intel is making an update to the BIOS from v0116 to BIOS v0134 +EC v1.29.09

## Customer Impact of Change and Recommended Action:

- Customer system will require 3 charging cycles to allow battery management system to learn charging behavior
- After the 3rd charging cycle, the battery charging behavior should normalize
- These activities may not be visible from a user perspective.

It is recommended that customers evaluate this new BIOS to ensure a smooth transition. This change has been thoroughly evaluated to ensure that there are no quality or reliability implications to our customers.

Milestone dates are estimates and subject to change based on business and operational conditions. Customer can expect to receive mixed inventory until current inventory levels are depleted.

Please contact your local Intel Field Sales Rep if you have any further questions about these changes.
