PCB Material Change and Label Update,  
**Reason for Revision: Correct product name  
in description of change**

**Date of Publication:** March 10, 2014

## Key Characteristics of the Change:

Product Material

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	Apr 22, 2014
---	--------------

## Description of Change to the Customer:

**Reason for Revision: Correct product name in description of change**

The Intel® Centrino® Advanced-N 6205 SKUs listed in this PCN will undergo the following changes:

1. The current printed circuit board FR4 material S1155 has been discontinued and will be replaced by S1150G. S1150G has passed UL certification and was determined to be equivalent to S1155. S1150G has been fully qualified and all 2014 released products were developed with S1150G. The only impact is a change to the UL Marking on some of the PCB suppliers.
2. The Intel Tracking Number on the product label for 62205AN.HMWG will change as follows:

Product Code	Current	New
62205AN.HMWG	0B	0C

## Customer Impact of Change and Recommended Action:

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

For your information only. No change to form fit or function. No change to Intel Ordering codes.

Milestone dates are estimates and subject to change based on business and operational conditions.
