Date Customer Must be Ready to Receive Post-Conversion Material:	Mar 31, 2017
-------------------------------------------------------------------------	--------------

Description of Change to the Customer:

The Intel® Dual Band Wireless-AC 8260 SKU listed in the products affected table will have the following changes.

As a result of changes decreed by the new European Radio Equipment Directive 2014/53/EU, Intel is making the following updates to all products.

1. The current CE ! Mark on the module label will be modified to remove the Alert Symbol (!) following the CE mark.
2. We will be adding 2 graphics to the outer packaging to be visible by EU customs.
 - a. A new CE graphic:
 - b. The Intel Corporate address

The Artwork for outer packaging has not been finalized by the EU at this time. As a result Intel may need to initiate these out packaging additions in 2 phases.

- Phase 1: separate labels will be created and added to the side of the outer box.
 Phase 2: Intel will incorporate into the existing out box labels.

3. Intel is adding the China Regulatory ID to the MBB Label & Disti label

CMIIT ID: 2015AJ2224 (M)

4. The Intel Tracking number revision will be changed as follows on the following products:
