

Product Change Notification

107009 – 00

Information in this document is provided in connection with Intel products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

Americas Contact: asmo.pcn@intel.com

Asia Pacific Contact: apacgccb@intel.com

Product Change Notification

Change Notification #: 107009 - 00
Change Title: Intel® Chipsets FC-BGA, PCN 107009-00,
Product Material, W-Lot Process
Optimization
Date of Publication: November 17, 2006

Key Characteristics of the Change:

Product Material

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Dec 22, 2006
Date of First Availability of Post-Conversion Material:	Dec 22, 2006

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

This change is to remove 3 criteria (as listed below) from current W lot merging process:

- A W-lot will only have maximum of 5 child lots.
- Among the child lots within a W-lot, the earliest date code and the latest date code should not exceed 12-week window.
- All the child lots within a W-lot will be from the same Fab plant.

Customer Impact of Change and Recommended Action:

No impact to product performance, appearance, quality, reliability, interchange ability, functionality, or customer handling and manufacturability.
