# Product Change Notification

**Change Notification #:** 104419 - 00  
**Change Title:** D4PCIIN, PCN 104419-00, FYI, Release new board assembly that allows certification for India  
**Date of Publication:** November 10, 2004

**Type of Change Notification:**  
FYI - (For Your Information)

**Key Characteristics of the Change:**  
Product Design

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	Dec 01, 2004
<b>Date of First Availability of Post-Conversion Material:</b>	Dec 01, 2004

*The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.*

## Description of Change to the Customer:

Release a new D4PCIIN board assembly that implements current limiting to allow certification in India. This is required for applications where the board connects directly to CO, not behind a PBX.

## Customer Impact of Change and Recommended Action:

The current board can be used in applications where it is not interfaced directly to telephone lines but is connected to a PBX. The new board requires unique parameter files. In order to download the correct parameter files for the D4PCIIN board Intel® Dialogic System Release SR5.1.1 Feature Pack 1 for Windows Service Update build 39 or later must be used.

This change has been thoroughly evaluated to ensure that it does not have any negative functional implications to our customer and has no impact on units in the field.

Intel will employ a "use up and go to" strategy. Orders placed against the pre-change order codes will be fulfilled until supply lasts, after that, orders will be fulfilled with post-change products. See order code details below.

## Products Affected / Intel Ordering Codes:

### Board Products Table

Affected Product Code	Pre-Change MM#	Post – Change MM#	Pre-Change TA#	Post-Change TA#	Pre-Change CA#	Post-Change CA#
D4PCIIN	838524	867912	C81794-001	C81794-002	C81795-001	C81795-002
