

Product Change Notification

103291 - 00

Information in this document is provided in connection with Intel® products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel® products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel® products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geography location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

Product Change Notification

Change Notification #: 103291 - 00
Change Title: DISI24R2, DISI32, DISI32CN, DISI32JP, DISI32R2, PCN 103291-00, FYI, Change to correct exceeding the PCI board envelope dimension
Date of Publication: May 02, 2003

Type of Change Notification:
FYI - (For Your Information)

Key Characteristics of the Change:
Product Design

Forecasted Key Milestones:

Date of First Availability of Post-Conversion Material:	May 16, 2003
--	--------------

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

Change to correct exceeding the PCI board envelope dimension that could result in the PCI board assembly touching the adjacent PCI board assembly. The solution consists of replacing the existing power cable strain relief screw and nut and adding a split lock washer.

Customer Impact of Change and Recommended Action:

This change is a design enhancement and has no impact on units in the field.

This change has been thoroughly evaluated to ensure that it does not have any negative functional implications to our customer.

Customers should modify their databases in order to place orders against the new order codes. See details below.

Products Affected / Intel Ordering Codes:

Board Products Table

Affected Pre Change Product Code	Pre-Change MM#	Post Change Product Code	Post-Change MM#
DISI24R2	852733	DISI24R2	855049
DISI32	849972	DISI32	855055
DISI32CN	849974	DISI32CN	855042
DISI32JP	849973	DISI32JP	855054
DISI32R2	852734	DISI32R2	855031
