Change Notification #: 115817 - 00
Change Title: Intel® AnyWAN™ GRX350 PXB4395
Network Processor,
PCN 115817-00, Product Material, Order
Code,
Thermal Interface Material update
Date of Publication: September 25, 2017

Key Characteristics of the Change:

Product Material, Order Code

Forecasted Key Milestones:

	IRX200	GRX350
Date of Samples Availability:	October 15, 2017	October 15, 2017
Date Customer Must be Ready to Receive Post-Conversion Material:	March 31, 2018	March 31, 2018
Date of First Availability of Post-Conversion Material:	October 15, 2017	October 15, 2017

**The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.*

Description of Change to the Customer:

Intel has qualified a new mold compound for the GRX550 to harmonize the production. We will use this new mold compound now also for GRX350 and IRX200 products.

The new MC has no impact on the functionality but the devices using the new MC will show an improved thermal behavior.

Current orders based on old MC are binding and will be delivered as ordered.

We will accept orders for the devices with the old mold compound till March 31st, 2018

After this date we will only accept orders for the new mold compound.

Customer Impact of Change and Recommended Action:

The change does not affect or impact form, fit or function of the products.

Devices with the new mold compound will have different ordering codes and can be distinguished by the Spec Code marked on the device. See details in the table below.
