Product Change Notification

Change Notification #: 105826 - 00
Change Title: D915PDTL, PCN 105826-00, FYI, Adding the Wake from S5 Support for some Keyboards and BIOS Update
Date of Publication: January 17, 2006

Type of Change Notification:
FYI - (For Your Information)

Key Characteristics of the Change:
Product Design

Forecasted Key Milestones:

Date of First Availability of Post-Conversion Material:	Feb 16, 2006
--	--------------

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

1. Upgrading the BIOS to revision 0406. The latest BIOS, and release notes are available at:

http://developer.intel.com/design/motherbd/dt/dt_bios.htm

Please refer to the release notes that accompany the BIOS for information on issues fixed and feature enhancements.

2. Adding the wake from S5 support for some keyboards to extended board support capability. This change to the board removes resistor RP6B1 and adds resistor RT1A1.

Customer Impact of Change and Recommended Action:

This board change is not expected to cause a change to the Microsoft* Windows* operating system's software driver stack. These hardware changes are being thoroughly evaluated to ensure that there is no quality, reliability or functional implications to our customers. UPSD is not recommending additional qualification for these changes received from Intel.

Products Affected / Intel Ordering Codes:

Board Products Table

Affected Product Code	Pre-Change MM#	Pre-Change TA or AA	Post-Change TA or AA
