Product Change Notification

Change Notification #: 108295 - 00
Change Title: Intel IP Network Server NSW1U, PCN 108295-00, Product Material, Change to Power Distribution Board
Date of Publication: February 26, 2008

Key Characteristics of the Change:

Product Material

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Mar 31, 2008
---	--------------

Description of Change to the Customer:

Changed the NSWA0201W and NSWD0201W systems to use the new Power Distribution Board (PDB) that has the power cable soldered to the printed circuit board. This allows a common PDB across multiple platforms, as it was required to use this part to properly fit in the TIGW1U and the NSWA0401W systems. This change allowed the removal of the separate Front Panel Power Cable.

Customer Impact of Change and Recommended Action:

These changes have been tested and passed a validation cycle on the Intel® IP Network Server NSW1U.

No impact. New PDB has been used in NSWA0401W SKU.

Products Affected / Intel Ordering Codes:

Pre Change Product Code	Pre Change MM#	Pre Change TA	Post Change TA
NSWA0201W	885432	D74310-006	D74310-007
NSWD0201W	885433	D74311-008	D74311-009
