Label, Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material*	September 23, 2023
---	--------------------

* Intel appreciates the customer's desire to receive the latest revision of products. However, Intel manages inventory on a first in first out (FIFO) basis at the MM# level. Subsequently, customer requests for a specific revision of material (below the MM#) will not be supported by Intel.

Description of Change to the Customer:

[Reason for Revision: Update TA Number](#)

Intel is implementing the following changes on the items listed in the “Products Affected” table:

Addition of updated AXX1300TCRPS 1300W Power supply to the R2308WFTZSR SKU. The AXX1300TCRPS 1300W Power supply is changing from H79286-012 to H79286-013 due to a label update to incorporate the new Taiwan BSMI standards CNS15936 (CISPR32) and CNS15598-1 (IEC62368-1). The new BSMI standard has updated warning text that goes into effect January 1, 2024. Additional changes include a PSU firmware upgrade from 29.5.128 to 30.5.128 and a revision change from 05A to 06A. There is no impact to functionality.
