Date of Publication: October 22, 2007

Key Characteristics of the Change:

Product Material

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Nov 12, 2007
---	--------------

Description of Change to the Customer:

Intel PRO/1000 PT Quad Port LP Server Adapter (Kirkwood LP OEM Gen & Retail) will undergo the following improvements:

- o The IDT switch on the adapter, which allows routing of the interrupts, such that each of the 4-ports has a unique interrupt (no sharing). YC switches on the boards will move to ZC switches, which enables this feature. The switch is backwards compatible.

These changes will roll the Printed Board Assembly (PBA) & Top Assembly (TA) part numbers, as noted in the Affected Products Table below.

Customer Impact of Change and Recommended Action:

Intel will be depleting inventory containing the YC switch prior to cutting over to the ZC switch-based adapters.

For questions, please contact your local Intel Field Sales Representative.
