

Product Change Notification

Change Notification #: 119600-00

Change Title: Select Boxed Intel® NUC Kit,
PCN 119600-00, Product Design, Label
BIOS and Label Update

Date of Publication: June 29, 2023

Key Characteristics of the Change:

Product Design, Label

Forecasted Key Milestones:

| | |
|--|---------------|
| Date Customer Must be Ready to Receive Post-Conversion Material | July 14, 2023 |
|--|---------------|

Description of Change to the Customer:

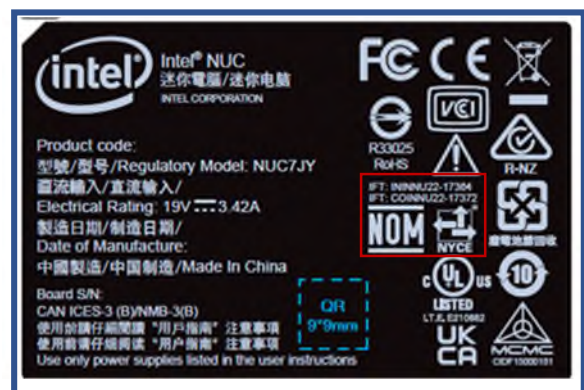

The Intel SKUs listed in the products affected table below will have the following changes:

1. Update BIOS to JY0068
2. Update Mexico IFT ID on Rating Label

Current Rating Label (sample)

New Rating Label (Add IFT, sample)

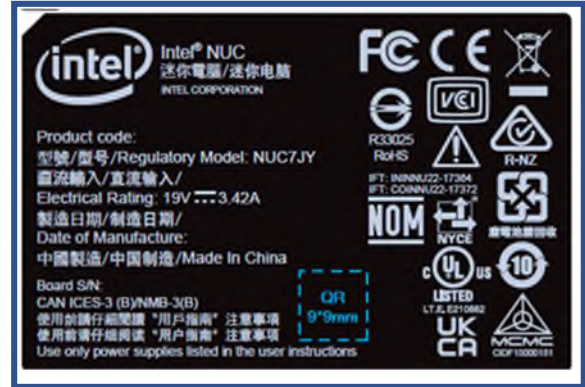

3. Remove EAC Logo on (Rating Label, Flyer, and Carton):

a. Rating Label

Current Rating Label (sample)

New Rating Label (remove EAC, sample)

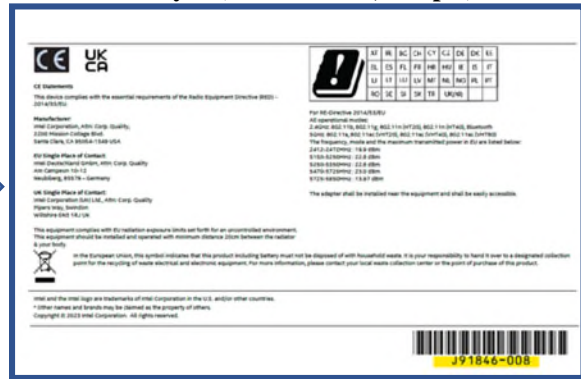

b. Flyer

Current Flyer (sample)

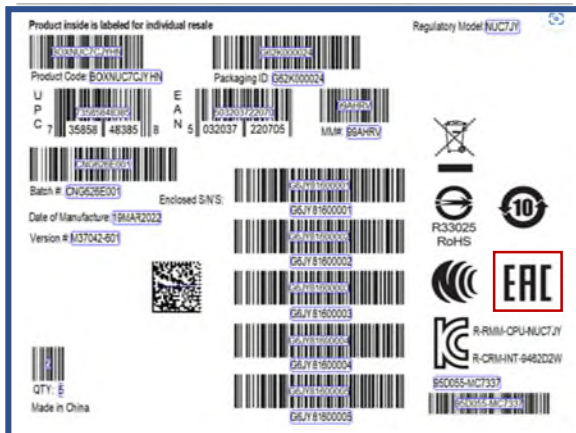

New Flyer (remove EAC, sample)

c. Carton

Current Carton Label (sample)

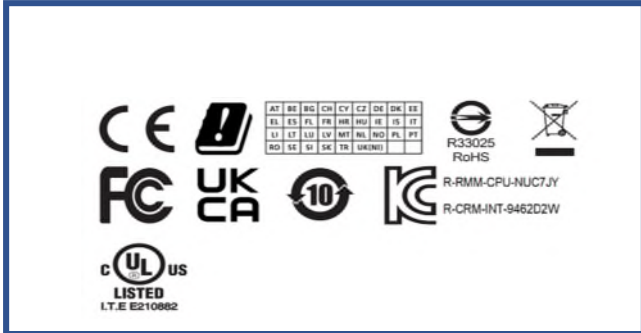

New Carton Label (sample)
Remove EAC, Add IATA warning

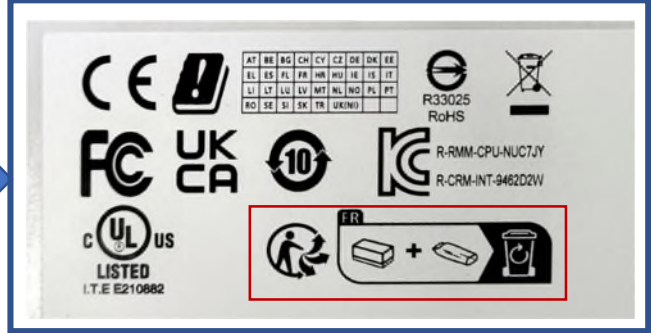

4. Add Tri-man Logo on (Regulatory Label on Retail Box, and Carton Label)

a. Retail Box Label

Current Regulatory Label (sample)

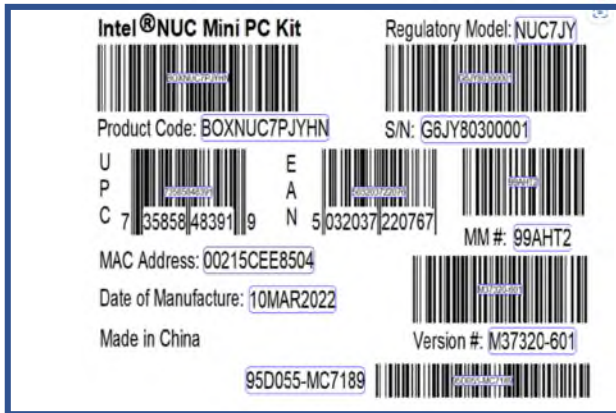

New Regulatory Label (Add Tri-man sample)

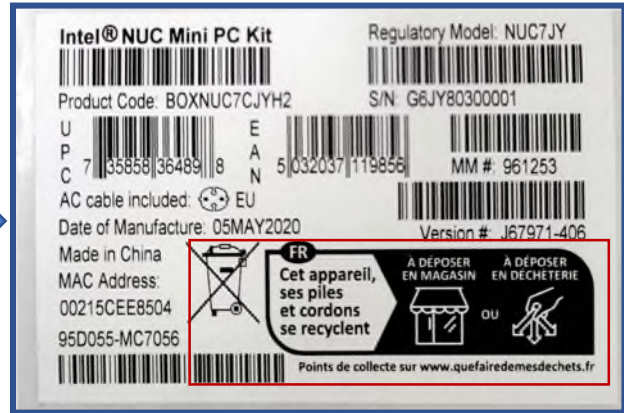

b. Carton Label

Current Carton Label (sample)

New Carton Box Label (add Tri-man logo, sample)

A complete list of BIOS changes can be found in the BIOS release notes.

The BIOS updates and release notes can be found at <http://downloadcenter.intel.com>.

Customer Impact of Change and Recommended Action:

The BIOS and label update has incremental improvement over the previous version, Intel anticipates no product impact with this firmware, and re-qualification is not recommended.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Intel Field Sales Rep if you have any further questions about these changes.

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
