

Product Change Notification

107245 - 00

Information in this document is provided in connection with Intel products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

Product Change Notification

Change Notification #: 107245 - 00
Change Title: Intel® Optical Transceiver,
TXN174114015F27, TXN174312013F17,
TXN174312013F27, PCN 107245-00, Product
Material, (Pb)-Free Conversion of
Components
Date of Publication: February 12, 2007

Key Characteristics of the Change:

Product Material

Forecasted Key Milestones:

Date of Samples Availability:	Feb 05, 2007
Date of Qualification Data Availability:	Feb 05, 2007
Date Customer Must be Ready to Receive Post-Conversion Material:	Mar 12, 2007

Description of Change to the Customer:

The Intel® Optical Transceiver is RoHS compliant with the Telecom exemption for leaded (Pb) components. Vendors are discontinuing some of these Pb components and replacing them with Pb-Free components of the same design. This does not change the transceiver RoHS status.

Vendors have been providing qualification data to meet the tin whisker requirements on the Pb-Free components. Please contact your local Intel sales representative to request the qualification data and the detailed list of components that are changing.

The timeline for Pb-Free conversion for each vendor and component is expected to be different and is targeted to be completed in April 2007. Intel will phase in each component conversion at different times based on the vendor transition timelines and the existing inventory for components with Pb.

Customer Impact of Change and Recommended Action:

Intel does not anticipate any quality, reliability or functional implications for our customers.

Please use the chart below for the part numbers associated with this Pb-Free component transition.

Products Affected / Intel Ordering Codes:

Affected Product Code	Affected MM# s
TXN174312013F17	872848
TXN174114015F27	882007
TXN174312013F27	884628
