Product Change Notification

Change Notification #: 105731 - 00
Change Title: Intel® NetStructure™ MPCHC0001 14U,
PCN 105731-00, FFF, Filter tray paint
masking update
Date of Publication: December 12, 2005

Type of Change Notification:

FFF - (Form-Fit-Function)

Key Characteristics of the Change:

Product Material

Forecasted Key Milestones:

Date of First Availability of Post-Conversion Material:	Dec 11, 2005
--	--------------

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

Improved filter tray paint masking. The improved paint mask does not allow paint be applied to the sides of the filter tray for improved filter tray insertion and removal. It also reduces the scratching of the painted surface when the tray is removed or inserted into the chassis.

Added alternate RoHS compliant part for the filter tray switch. The primary switch color is black and the alternate switch color is green. Both parts are from the same manufacturer and may be used.

Customer Impact of Change and Recommended Action:

None

Products Affected / Intel Ordering Codes:
