Change Notification #: 116913 - 00

Change Title: Intel® Ethernet Converged Network Adapter X710-DA2,
Product Code: EX710DA2G1P5, MM# 944042,
PCN 116913-00, Product Design,
Capacitor Value Update

Date of Publication: August 16, 2019

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	September 20, 2019
---	--------------------

Description of Change to the Customer:

The Intel® Ethernet Converged Network Adapter X710-DA2 listed in the Products Affected table will undergo the following changes:

In a very specific configuration, there is a glitch on the PERST line, caused by a capacitor used to address an ESD issue. If the capacitor value is changed to a lower one, the ESD protection is maintained, while the glitch is removed and the problem disappears. This update will remove that issue.

The product description text in the VPD will be corrected, as it currently shows the product as “XL710 40GbE Controller”. It will be updated to “X710 10GbE Controller”

As a result of this change, the PBA (printed board assembly) and TA (top assembly) numbers will roll as noted in the affected products table within this PCN notice. If the PBA/TA numbers are printed on any product or box labels, those will show the PBA/TA dash roll as well.

Customer Impact of Change and Recommended Action:

Intel anticipates no impact to customers. Please contact your local Intel Field Sales Rep if you have any further questions about these changes.
