

Product Change Notification

Change Notification #: 119005-00
Change Title: Intel® Server System R2308WFTZSR
Intel® Server System R2208WFTZSR
PCN 119005-00, Product Material,
New Server Board as alternate
Date of Publication: March 30, 2022

Key Characteristics of the Change:

Product Material

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material*	April 21, 2022
---	----------------

* Intel appreciates the customer's desire to receive the latest revision of products. However, Intel manages inventory on a first in first out (FIFO) basis at the MM# level. Subsequently, customer requests for a specific revision of material (below the MM#) will not be supported by Intel.

Description of Change to the Customer:

Intel is implementing the following change on the items listed in the "Products Affected" table.

Adding a second source for the Over Current Protection (OCP) Integrated Circuit (IC) on the Server Board. The new IC is identical in form factor and function to the previous one.

As a result, we are adding as alternates the Server Board PBA shown in the "Products Affected" table.

Customer Impact of Change and Recommended Action:

Intel anticipates no impact to customers. Please contact your local Intel Field Sales Representative if you have any further questions about these changes.

Products Affected/Intel Ordering Codes:

Marketing Name	Product Code	MM#	Pre Change TA	Pre Change PBA	Post Change TA	Post Change PBA
Intel® Server System R2208WFTZSR, Single	R2208WFTZSR	986049	K39991-015	H48104-961, H48104-951	K39991-016	H48104-961, H48104-951, M71494-951, M71494-961
Intel® Server System R2308WFTZSR, Single	R2308WFTZSR	986052	K40014-013	H48104-961, H48104-951	K40014-014	H48104-961, H48104-951, M71494-951, M71494-961

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
