

Product Change Notification

107065 - 00

Information in this document is provided in connection with Intel products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

Product Change Notification

Change Notification #: 107065 - 00

Change Title: Intel® PRO/Wireless 2915ABG Network Connection Skus: WM3B2915AGNAF (MM# 866870), WM3B2915AGEUF (MM# 867261), WM3B2915AGNAXF (MM# 871124), WM3B2915AGEUXF (MM# 871122), PCN 107065-00, Label, Update Singapore Regulatory Markings, add India Regulatory Marking.

Date of Publication: December 06, 2006

Key Characteristics of the Change:

Label

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Jan 12, 2006
Date of First Availability of Post-Conversion Material:	Jan 12, 2006

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

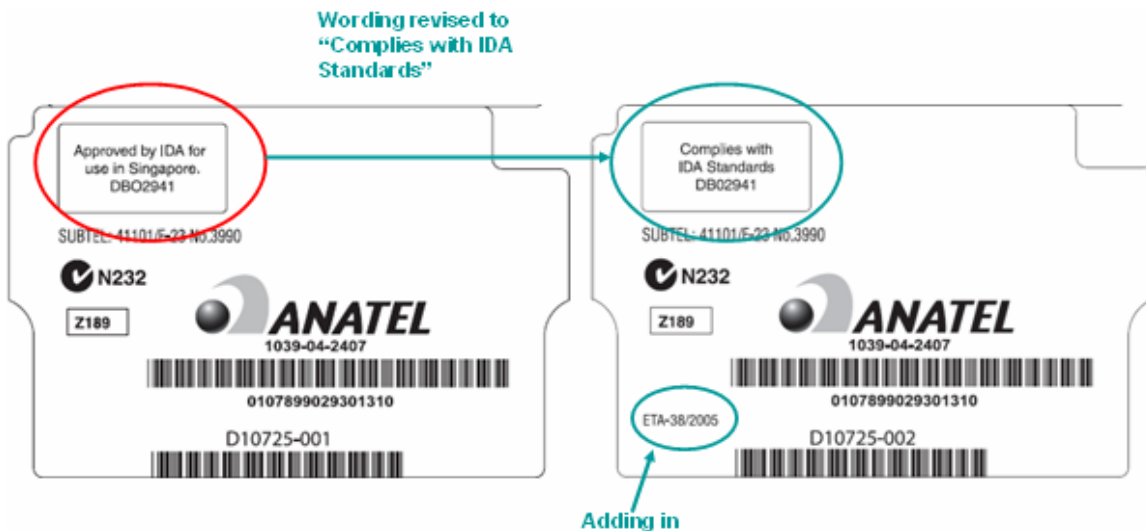

This ECO cycle implements multiple changes as per the Q1 07 ECO Cadence process:

1. Singapore IDA marking change to comply with Singapore regulatory requirement (NAF, NAXF, EUF, EUXF skus).
2. Add in country logo markings for India on AGNAF and AGNAXF skus ONLY

Customer Impact of Change and Recommended Action:

Customer will receive product with the following changes:

1. NAF, NAXF skus: Singapore IDA marking change to comply with Singapore regulatory requirement and add in India regulatory marking (ETA38/2005).

2. EUF, EUXF skus: Singapore IDA marking change to comply with Singapore regulatory requirement

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

For your information only. No change to form fit or function. No change to Intel Ordering codes.

Milestone dates are estimates and subject to change based on business and operational conditions.
