## Customer Impact of Change and Recommended Action:

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

For your information only. No change to form fit or function. No change to Intel Ordering codes.

Please contact your local Intel Field Sales Rep if you have any further questions about these changes.

Due to size and space on the module, the only record of the regulatory IDs is with the packaging labels. If you need the IDs for regulatory purposes please keep a record of a package label or contact Intel for the IDs.
