Product Change Notification

Change Notification #: 104104 - 00
Change Title: SS7SBHDFMON, SS7SBHDFMTP2L, SS7SBHDFMTP2R, PCN 104104-00, FYI, Protocol Licensing Buttons are being renamed
Date of Publication: Aug 13, 2004

Type of Change Notification:
FYI - (For Your Information)

Key Characteristics of the Change:
Order Code

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Oct 1, 2004
Date of First Availability of Post-Conversion Material:	Oct 1, 2004

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

The protocol license buttons SS7SBHDFMON, SS7SBHDFMTP2L and SS7SBHDFMTP2R are being replaced by SS7SBHDFBA, SS7SBHDFBD and SS7SBHDFBC respectively. The protocol license buttons are identical; only the Product Code and MM numbers have been changed.

Customer Impact of Change and Recommended Action:

Customers using license buttons SS7SBHDFMON, SS7SBHDFMTP2L and SS7SBHDFMTP2R are not required to upgrade their products.

Intel will employ a "use up and go to" strategy. Orders placed against the pre-change order codes will be fulfilled until supply lasts, after that, orders will be fulfilled with post-change products. Customers should modify their databases in order to place orders against the new order codes. See details below.

Products Affected / Intel Ordering Codes:
