Product Change Notification

Change Notification #: 103894 - 00
Change Title: HDSI, SIB, PCN 103894-00, FYI, Design Change to increase slot size in the HDSI, SIB rack mount bracket to fit both 10-32 and M6 mounting screw sizes
Date of Publication: April 12, 2004

Type of Change Notification:
FYI - (For Your Information)

Key Characteristics of the Change:
Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	May 14, 2004
Date of First Availability of Post-Conversion Material:	May 14, 2004

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

The current slot in the rack mount bracket used to secure the HDSI, SIB are too small for M6 size screws. A redesign increases the slot size in the HDSI, SIB rack mount bracket to fit both 10-32 and M6 screw sizes.

Customer Impact of Change and Recommended Action:

This change is a design enhancement to improve the HDSI, SIB usability in areas of the world where metric hardware is common. Intel will employ a "use up and go" strategy. Orders placed against the HDSI and SIB products will be fulfilled with the current rack mount bracket until supply lasts, after that, orders will be fulfilled with new bracket.
No action required by Customers.
