The above labels are representation for example purposes only. Actual labels will reflect correct product data.

As a result of this change, TA (top assembly) numbers will roll as noted in the affected products table within this PCN notice. If the TA numbers are printed on any product or box labels, those will show the TA dash roll as well.

Customer Impact of Change and Recommended Action:

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

For your information only there is no change to form fit or function; no change to Intel® ordering codes.

Milestone dates are estimates and subject to change based on business and operational conditions.
