Product Change Notification

Change Notification #: 105630 - 00
Change Title: SR4850HW4, SR6850HW4 and option
AHWPROCBLANK,
PCN 105630-00, FYI,
CLASS 2: Processor heatsink dummy screw
change
Date of Publication: November 04, 2005

Type of Change Notification:
FYI - (For Your Information)

Key Characteristics of the Change:
Product Material

Forecasted Key Milestones:

Date of First Availability of Post-Conversion Material:	Nov 18, 2005
--	--------------

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

The four screws provided with the processor heatsink dummy (also known as processor heatsink filler) are being changed from a pan head screw to a hex nut screw. The hex nut screws can be installed using either a hex nut driver or a philips screw driver.

AHWPROCBLANK
MM# 869987

Change the top assembly number from C99683-001 to C99683-002
Change heatsink assembly from C65170-003 to C65170-004

Customer Impact of Change and Recommended Action:

The change of screw supplied with the heatsink dummy does not affect your current processes to install a heatsink dummy.

The four screws provided with the processor heatsink dummy (also known as a processor heatsink filler) are being changed from a pan head screw to a hex head screw.

Heatsink dummy (C65170-003) is supplied with pan head screws. The screws require a phillips screw driver for installation.

Heatsink dummy (C65170-004) is supplied with a hex head screw. The screws can be installed with a phillips screw driver or a hex nut screw driver.

Installation of the C65170-004 heatsink dummy:
For installation into the SR6850HW4 server both screw driver types can be used for installation of the heatsink dummy.

For installation into the SR4850HW4 server with the lower air duct C80546-002 only a phillips screw driver can be used for installation of the heatsink dummy.

For installation into the SR4850HW4 server supplied with the lower air duct C80546-003 either a hex nut driver or a phillips screw driver can be used for installation of the heatsink dummy.

The lower air duct C80546-003 has eight cut outs to support the use of a hex nut screw driver.

See PCN 105526 for the lower air duct change.
