Product Change Notification

Change Notification #: 111783 - 00
Change Title: Intel® Desktop Board DH67BL, Boxed and Bulk
PCN 111783-00, Product Design
Enable BIOS to be Updated
Date of Publication: October 04, 2012

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Oct 22, 2012
---	--------------

Description of Change to the Customer:

The VCCP_AUX circuit operation will be enhanced to enable the BIOS to be updated when using some Power Supplies.

Customer Impact of Change and Recommended Action:

This change has been thoroughly evaluated to ensure there is no quality, reliability, or functional implication to our customers. Intel is not recommending additional qualification of these changes on platforms received from Intel.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.
