

Product Change Notification

104851 - 01

Information in this document is provided in connection with Intel products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

Product Change Notification

Change Notification #: 104851 - 01
Change Title: D915GEV, PCN 104851-01, FYI, Chipset conversion from B-step to C-step
Date of Publication: February 23, 2005

Type of Change Notification:
FYI - (For Your Information)

Key Characteristics of the Change:
Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Mar 10, 2005
---	--------------

Description of Change to the Customer:

Based on current B step demand, Intel does not expect to be able to support customers on B step G/MCH beyond the March 7, 2005 ready to receive (RTR) milestone

The GMCH component of the Intel®915G, 915GV and the 910GL Express chipsets and the MCH component of the Intel®915P Express Chipset are converting from B-1 to C-2 stepping.

For technical details of the Intel® 915G, 915P, 915GV and the 910GL chipset, please refer to the latest Spec Update available on FDBL.

Customer Impact of Change and Recommended Action:

The B-1 stepping of the 915G, 915P, 915GV, and 910GL Express chipsets is pin-to-pin compatible with the C-2 and does not require any motherboard modifications. Design changes, however, have been made to the 915G, 915P, 915GV and the 910GL Express chipsets and will require customers to perform re-qualification.

This board change is not expected to cause a change to the Microsoft* Windows* operating system's software driver stack. These hardware changes are being thoroughly evaluated to ensure that there is no quality, reliability or functional implications to our customers. PASD is not recommending additional qualification of these changes received from Intel.
