Date Customer Must be Ready to Receive Post-Conversion Material:	Nov 07, 2008
Date of First Availability of Post-Conversion Material:	Nov 07, 2008

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

1. Incorporate new OUI block on 5100 Generic SKUs.

Customer Impact of Change and Recommended Action:

Customer will receive product with the following changes:

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.
