Product Change Notification

Change Notification #: 110782 - 00
Change Title: Intel® Desktop Board DQ67SW, Boxed and Bulk
PCN 110782-00, Product Design
BIOS Update and Change to USB Controller to Improve Supply Line
Date of Publication: June 24, 2011

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Jul 11, 2011
---	--------------

Description of Change to the Customer:

1. BIOS update from SWQ6710H.86A.0049 to SWQ6710H.86A.0052. To access the release notes or get a copy of the BIOS for evaluation, go to <http://downloadcenter.intel.com>.
2. Change USB3.0 controller to a new version due to global limitations with the current silicon supply.

Customer Impact of Change and Recommended Action:

It is recommended that customers evaluate this new BIOS to ensure a smooth transition. This change has been thoroughly evaluated to ensure that there are no quality or reliability implications to our customers. Intel validation of a new board revision does not include testing with older versions of BIOS. This change is not expected to cause a change to the Microsoft Windows* operating system's software driver stack.

It has been observed that the change to the USB3.0 controller reports a "New device detected" in some operating systems. Microsoft* Windows will display a message and automatically install the necessary drivers; customers may wish to update their OS image to avoid the message.

These changes have been thoroughly evaluated to ensure that there are no quality, reliability or functional implications to our customers. Intel is not recommending additional qualification of these changes on platforms received from Intel.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Products Affected / Intel Ordering Codes:

Product Code	MM#	Pre Change AA	Post Change AA
BOXDQ67SWB3	915094	G12527-308	G12527-309
BLKDQ67SWB3	915095	G12527-308	G12527-309
