Change Title: Intel® Arduino 101* and Intel® Genuino 101*, PCN 115351-00, Order Code, Transition from Intel® Genuino 101* to Intel® Arduino 101* for Most of the World

Date of Publication: March 15, 2017

Key Characteristics of the Change:
Order Code

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	March 20, 2017
---	----------------

Description of Change to the Customer:

From March 15, 2017, the list of countries to which the Intel® Arduino 101* development board, MM# 946642, can be shipped has been substantially expanded. The Intel® Arduino brand is recognized and promoted globally. With the exception of customers shipping or selling into these countries: Argentina, Brazil, China (PRC), Indonesia, Japan, Nepal, South Korea, and Taiwan.

Customers of the Intel® Genuino 101* development board, MM# 950417, should now purchase the Intel® Arduino 101* board MM# 946642 instead. The Intel® Arduino 101* and Intel® Genuino 101* development boards are identical from a functional perspective and differ from one another only in branding and in their certification markings. There is no impact to inventory of any Intel® Arduino 101* or Intel® Genuino 101* SKUs already in stock or in transit.

Customer Impact of Change and Recommended Action:

Customers shipping or selling into any of the following countries should continue ordering Intel® Genuino 101*, MM# 950417: Argentina, Brazil, China (PRC), Indonesia, Japan, Nepal, South Korea, and Taiwan. All other customers should order Intel® Arduino 101* MM# 946642.

In the second half of 2017, certification markings on the circuit board will be updated to create a single Intel® Arduino 101* SKU for distribution to all countries in which the product can be sold.
