To ensure that the Intel product you purchase meets the stringent quality and reliability standards that you have come to expect, Intel is implementing an authentication label for our Ethernet Adapter products. This label will provide you with on-demand validation and manufacturing information about your product. When you receive product with this new authentication label, you will be able to verify that you have a genuine Intel product by going to <http://verify.yottamark.com/>.

This authentication label will be placed on the secondary side of the printed board, see sample authentication label picture below.

If you have any questions concerning this WEEE directive, please send an email to weee@intel.com.

The WEEE label will be placed on either the back or the front of the printed board (PB) depending on how much free space is available on the front or the back of the PB, see sample label picture below.
