

Product Change Notification

Change Notification #: 119058-00
Change Title: Intel® Server System R2208WFTZSR, PCN 119058-00, Product Design, Power Supply (PSU) label update
Date of Publication: May 4, 2022

Key Characteristics of the Change:
 Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material*	May 27, 2022
---	--------------

* Intel appreciates the customer's desire to receive the latest revision of products. However, Intel manages inventory on a first in first out (FIFO) basis at the MM# level. Subsequently, customer requests for a specific revision of material (below the MM#) will not be supported by Intel.

Description of Change to the Customer:

Intel is implementing the following change on the items listed in the "Products Affected" table.

- Adding the UKCA mark and removing S&E from CCC logo on the 1300W Power Supply (PSU) label. The Power Supply (PSU) is changing from H79286-010 to H79286-011 due to the label modification.

Current	New
<p>The current label features the Intel logo, 'SWITCHING POWER SUPPLY' in multiple languages, and technical specifications. It includes the CCC logo with 'S&E' and 'UKCA' marks. The model number H79286-010 is highlighted in a red box. A warning section is also present.</p>	<p>The new label is identical to the current one but includes the UKCA mark and removes the 'S&E' from the CCC logo. The model number H79286-011 is highlighted in a red box.</p>

Customer Impact of Change and Recommended Action:

Intel anticipates no impact to customers. Please contact your local Intel Field Sales Representative if you have any further questions about these changes.

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
