FHJBLOWER
Date of Publication: November 02, 2006

Key Characteristics of the Change:

Product Discontinuance

Forecasted Key Milestones:

Last Product Discontinuance Shipment Date:	Nov 02, 2006

Description of Change to the Customer:

The current blower spare kit used for the Intel(R) server systems SR1530CL and SR1530AH is being discontinued due to excessive rotational vibration when blowers are running at full speed which has interference in some SATA drives causing performance degradation and being replaced with a new blower that has been tested by Intel. Test results of the new blower confirm reduced chassis vibrations, and therefore reduced performance degradation loss.
