# Product Change Notification

**Change Notification #:** 112623 - 00  
**Change Title:** Intel® SSD 525 Series (90GB, 120GB, 180GB, 240GB) mSATA  
PCN 112623-00, Product Design  
Firmware Update  
**Date of Publication:** September 24, 2013

**Key Characteristics of the Change:**  
Product Design

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	Oct 11, 2013
---	--------------

## Description of Change to the Customer:

The Intel® SSD 525 Series firmware version is being updated from LLGi to LLLi to enhance system performance. The changes in the new firmware version are incremental improvements from previous version. Inventory will transition in the Intel factory on or beyond the above date to replace older firmware version with the latest version.

## Customer Impact of Change and Recommended Action:

Since the firmware update has incremental improvement over the previous version, Intel anticipates no product impact with this firmware, and re-qualification is not recommended.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.
