Product Change Notification

Change Notification #: 108253 - 00
Change Title: DG31PR, PCN 108253-00, Product Material, Replace CDs with DVD
Date of Publication: January 24, 2008

Key Characteristics of the Change:

Product Material

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Feb 08, 2008
---	--------------

Description of Change to the Customer:

To simplify installation, we are combining the driver CD and application CD into a single DVD with all the same content.

Customer Impact of Change and Recommended Action:

This change might impact a few customers still creating systems with a CD drive only, but Intel has thoroughly evaluated the channel and found very few customers still doing so. This change is not connected to the board product and will not have any quality or reliability impact. Because there is no effect to the board (just the accompanying materials), the AA number will not change and the new DVDs will simply start shipping once supply demands.
