

Product Change Notification

106854 - 01

Information in this document is provided in connection with Intel products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

Product Change Notification

Change Notification #: 106854 - 01
Change Title: Intel® Optical Transceiver, TXN174114015, PCN 106854-01, Product Material, Optics Factory Transfer, Replace Pb packaged components to same design Pb Free, Reason for Revision: to Remove Adding Second Source PCB Vendor
Date of Publication: November 17, 2006

Key Characteristics of the Change:

Product Material

Forecasted Key Milestones:

Date of Samples Availability:	Dec 06, 2006
Date of Qualification Data Availability:	Dec 06, 2006
Date Customer Must be Ready to Receive Post-Conversion Material:	Mar 06, 2007
Date of First Availability of Post-Conversion Material:	Jan 17, 2007

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

Reason for Revision: to Remove Adding Second Source PCB Vendor

The following changes will be in the Intel® TXN174114015 10GBASE-ER XENPAK 40km optical transceiver starting Jan 17 2007:

- Transfer optics manufacturing factory from USA to Thailand. Design does not change during and after the transfer process. The transceiver assembly facility will remain in Malaysia.
- Replace 2 components with Pb packages to an identical design supplied by same supplier and Pb-free. A list of components being affected is available upon request.

Product marked and shipped after March 06, 2007 will incorporate the changes listed above

Customer Impact of Change and Recommended Action:

Intel does not anticipate any impact to the customers. However samples will be available if requested. Please contact your local Intel Field Sales Representative for delivery requests.

Intel expects TXN174114015 possible product supply constraints in the early part of Q1 '07 as a result of this optics factory transfer. Please work with your local sales contact to assess shipment impact.

Products Affected / Intel Ordering Codes:

Affected Product Code	Affected MM#
