### Forecasted Key Milestones:

<b>Intel Enpirion Power Solutions Label Content Change Availability:</b>	Now
--	-----

### Description of Change to the Customer:

Intel Programmable Solutions Group is notifying customers of a minor label content change due to revised Material Master Number (MM#) and Spec Code on selected Intel Enpirion® PowerSoC Devices. Figure 1 shows the highlighted Spec Code and MM# change in the label. There are no changes to the actual products. This is the same change described in ADV1920 issued on December 18, 2019.

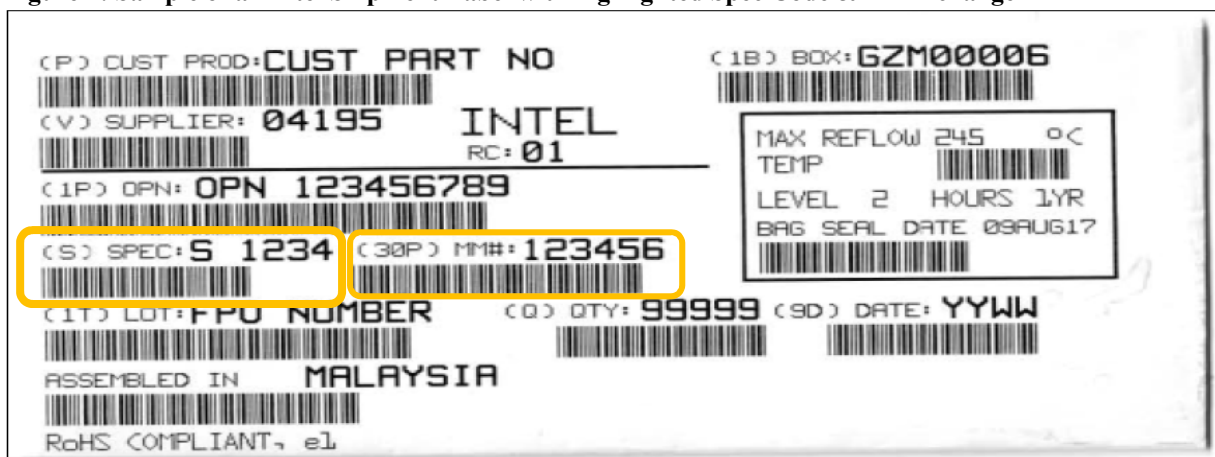

### Reason for Change:

There was a need to correct an attribute entry in the internal manufacturing system which required new MM# and Spec Code to be generated. Label content will align to the updated MM# and Spec Code.

**Table1: Revised MM# & Spec Code for affected OPNs**
