Product Change Notification

Change Notification #: 112777 - 00
Change Title: Intel® Desktop Board DQ87PG, Bulk
PCN 112777-00
Product Design
Update TPM Chipset and BIOS
Date of Publication: February 20, 2014

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Mar 03, 2014
---	--------------

Description of Change to the Customer:

The TPM (Trusted Platform Module) will be updated and the BIOS will be updated from PGQ8710H.86A.0036 to PGQ8710H.86A.0144 to improve the Intel® TXT (Intel® Trusted Execution Technology).

Customer Impact of Change and Recommended Action:

This change has been thoroughly evaluated to ensure there is no quality, reliability, or functional implication to our customers. Intel is not recommending additional qualification of these changes on platforms received from Intel.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.
