Product Change Notification

Change Notification #: 104224 - 00
Change Title: D925XCV and D925XBC, PCN 104224-00,
FYI, 1394 wake change and new driver disk
Date of Publication: July 07, 2004

Type of Change Notification:
FYI - (For Your Information)

Key Characteristics of the Change:
Documentation

Forecasted Key Milestones:

Date of First Availability of Post-Conversion Material:	Jul 18, 2004
--	--------------

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

1. Added a new driver diskette.
2. Disconnected the 1394 controller from PME to prevent unintended wake event assertions. Removed R8E9. As a result 1394 devices will not wake the system from sleep states.

Customer Impact of Change and Recommended Action:

The changes have been thoroughly evaluated to ensure that there is no quality, reliability or functional implications to our customers.

Products Affected / Intel Ordering Codes:

Board Products Table

Affected Product Code	Pre-Change MM#	Post-Change MM#	Pre-Change TA or AA	Post-Change TA or AA	Pre-Change PBA	Post-Change PBA
