Product Change Notification

Change Notification #: 107679 - 01
Change Title: Selected Intel Networking Components Marked with Former Intel® Logo, PCN 107679-01, Product Marking, Reason for Revision: Adding additional affected mm's
Date of Publication: September 11, 2007

Key Characteristics of the Change:

Product Marking

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Jul 27, 2007
---	--------------

Description of Change to the Customer:

Reason for Revision: Adding additional affected mm's

In January of 2006 Intel announced the introduction of the new brand logo to be used by all products sold by Intel. This notification is to announce the implementation plans for the new Intel logo change for "Components" products and how it impacts customers. Over the next few months Intel will be replacing the former Intel dropped "e" marking with a new marking. Customers will begin seeing the new product mark as shown in the picture below.

Customers may begin receiving a mix of old Intel logo and the new Intel product marks within a shipment until depletion of all pre-conversion material.

Customer Impact of Change and Recommended Action:

Intel anticipates no impact to form, fit, function, or reliability of any of the products affected by this change.

Customers may want to notify their receiving departments of the new product mark change.

This change does not affect any previously announced changes. For example any Product Discontinuances or Product Changes that have been published are still in affect.
