Description of Change to the Customer:

The Intel Gigabit ET Quad Port Server Adapters, E1G44ET2/ET2BLK/ETG2P20, (Portville QT ACS OEM generic/Retail) will undergo the following changes:

OUI Block change: Past run rates have caused the available blocks of MAC addresses assigned to run out. The OUI Block 00-1B-21 has hit the low water mark, the new OUI Block will be 90-E2-BA.

As a result of this change, the PBA (printed board assembly) and TA (top assembly) numbers will roll as noted in the affected products table within this PCN notice. If the PBA/TA numbers are printed on any product or box labels, those will show the PBA/TA dash roll as well.

3n1 label change: The 3n1 label will change to reflect the new OUI Block number and PBA# dash roll (printed board assembly), as show in the picture below. The 3n1 label is placed on the Front side of the Printed Board. (picture example only)
